Subject SPRU

Avi: In anticipation of tomorrow's call, we sat down last week with Paul Giardina to further discuss the various issues raised by SPRU. We'll talk about these tomorrow, but Paul suggested having someone from OAR participate (Tom Peake) and it occurred to me that if you have a rad specialist you think would be helpful in these discussions, we'd be happy to bring him or her up to speed today and include in tomorrow's call. Any concern with including the OAR rep? Thoughts re an OGC staffer to include? If you have any questions or would like to discuss, my number is 212-637-3107. Thanks.

Eric
